Subject: Invitation as a resource person in a Two Days Professional Development Training Program.

Dear Sir,

Hon. Secretary Adv. Sandeep Kadam Senate Member, SPPU, Pune

As per our telephonic conversation, I am pleased to extend a formal invitation to you for sharing your knowledge as a resource person at Two Days Professional Development Training Program on 27.1.2024 and 29.01.2024. The purpose of the proposed seminar is to provide staff members with an opportunity to acquire and utilize new knowledge and skills that will benefit them in current job and future careers.

Treasurer

Adv. Mohanrao Deshmukh

Since you are an eminent person in this field and have made valuable contributions to the topic, we take this opportunity to invite you as a resource person for this program. The topics which will be discussed in the proposed program include Work Ethics, Behavioral Etiquettes, Time Management, Effective Communication, Professional Grooming and Stress Management.

Dy. Secretary L. M. Pawar

Thanking you.

1. Chem Sketch

A. Introduction

This is an introduction to the program ChemSketch, from ACD Labs. You can use ChemSketch to draw chemical structures, and to view them as three dimensional (3D) models.

The approach in this tutorial is to show by example. I will lead you through one example in some detail, showing how to draw the structure, and how to convert it to 3D. After that, I will briefly show some other features.

No attempt is made here to teach all of ChemSketch. The idea is to guide you to some basics. If you can do the things shown here, you should then be ready to pursue more features of the program on your own -- as you need them.

B. Getting and installing ChemSketch

Requirements. ChemSketch should run under Windows versions from Windows 2000 onwards. (I am running v 2016 1.1 with Windows 10, 64 bit.)

If you want to run ChemSketch with other systems, see <u>Notes: Requirements and versions</u>.

Obtaining ChemSketch. Go to https://www.acdlabs.com/resources/free-chemistry-software-apps/. Choose ACD ChemSketch Freeware.

The current version is 2016, originally posted at their web site November 2016. (According to the ChemSketch "About" screen, the specific program version is now 2016 1.1, dated July 2016.) If you find a more recent version, please contact me, and I will update these instructions as needed.

Installation. Install ChemSketch by running the exe file that you downloaded. The installation program installs **two** programs, ChemSketch itself and a program called 3D. ChemSketch is the drawing module, and 3D is the module for viewing 3D structures. ChemSketch is introduced in <u>Section C</u> below, and 3D is introduced in <u>Section E</u>. More about how these two programs (or "modules") interact with each other in Sections <u>E</u> and <u>I</u>.

Settings. ChemSketch will run fine "out of the box". However, there are things one can set as you wish; they are on the **Options** menu, choose **Preferences**. Version 11 introduced one setting that may well be worth a try. On the **General** tab, click **Use Antialiasing**. This feature will result in less jagged lines on the screen output. More information about this feature is in the section <u>Antialiasing</u>, but it is probably ok to just turn it on. Whether it is on or off by default varies with the version; in version 14, it seems to be off.

C. Drawing your first molecule

In this section, you will draw a simple organic molecule, to get started with the basic features of ChemSketch. The molecule is propane, CH₃CH₂CH₃.

Open ChemSketch (for example, by clicking on its icon).

Fig. Screen shot of the upper left hand corner of the opening screen.

Two of the tool buttons are already "lit up" when you open ChemSketch. One of these is along the left side, labeled C, for carbon. The other is a tool that looks something like a pencil drawing a line, along the 2nd horizontal row of tools near the 20-25 tics on the ruler. This tool, named "Draw Normal", is the tool you use for ordinary drawing. Also, ChemSketch is in "structure" mode, as indicated by the word "Structure" being lit up (upper row of buttons, at left).

All of the settings mentioned here should be ok when you first open ChemSketch. However, if you change them, you may need to get back to them.

Single click anywhere on the main screen. You should see CH₄ appear on the screen.

Position the pointer over that CH₄. You will know when the pointer is properly positioned because a faint box will appear around the C atom (along with its hydrogens). Single click. You should now see H₃C-CH₃ (which is ethane).

Position the pointer over either C-region of that H₃C-CH₃. You will know when the pointer is properly positioned because a faint box will appear around the C atom you have chosen (along with its hydrogens). Single click. You should now see a 2D structure of propane (Fig 3):

Lessons from this section -- the basic tools of ChemSketch: As you draw the propane structure, note the following general points... To add a Carbon, you click on the place where you want it added. You use the C tool -- the default-- for this.

Each time you add a C, the number of hydrogens shown will adjust appropriately. With these simple tools, you are drawing molecules of C and H.

D. 3D structures – introduction

At this point, you have a 2D structure on the screen in ChemSketch. You want to convert it to a 3D structure. There are two ways to do this; these are described in the following two sections. You can use either of them; they both work fine, and are approximately equivalent in ease and features. If you are just playing around to see some structures, it may be simplest to stay within ChemSketch (Section E). On the other hand, if you are already familiar with RasMol, you might prefer to save the structure in a file format that RasMol can read (Section F).

E. 3D structures, within ChemSketch

1. Convert the 2D drawing to 3D. To do this, go to **Tools** menu, and choose **3D Structure Optimization**. Alternatively, you can click the button near the right end of the second toolbar; the button looks like a model of CH₄ and lights up with the name **3D Optimization**. On my computer, it is "off the screen", and I have to choose >> ("more buttons") to get to it. (Note that this step is the same whichever method you use for getting a 3D view.)

If you want to do further editing of the structure, first undo the 3D optimization. Go to the **Edit** menu, and choose **Undo 3D optimization**.

2. Click on the rectangular button labeled **Copy to 3D**, near lower left corner of screen (Fig 4, below). ChemSketch will now switch to the 3D module, and display the molecule you have drawn.

If you do not see the **Copy to 3D** button, it means you have not yet opened the 3D Viewer program. That is ok; just go open it now. You can open 3D Viewer by clicking on the **3D Viewer** tool button near the right end of the upper tool bar. On my computer, it is "off the screen", and I have to choose >> ("more buttons") to get to it. Clicking this button opens 3D Viewer, and copies the current structure to that module. Another way to open the 3D Viewer is to go to the **ACD/Labs** menu, and choose **3D Viewer**. (Be sure you have done the 3D optimization before copying to 3D.)

If you do not see the **3D Viewer** tool button, you may need to add it to the toolbar. To do that, click on the odd symbol at the right hand end of the upper toolbar; the symbol looks like a hyphen with a down-arrowhead under it. You will get a list of buttons. Near the bottom is "3D Viewer". Click it, to add it to the toolbar. (This also lets you see what the button looks like.)

Fig Screen shot of the lower left hand corner of the ChemSketch screen -- after the 3D Viewer has been opened. If you do not see the buttons described here, see the paragraphs immediately above.

Note the Copy to 3D and 3D View buttons, above/right of the Start button (which is shown in its default, most common, location at the lower left of the screen), and three lines below the default palette. (Also note the button there labeled ChemSketch. When you are in the 3D module, this button at the lower left, near Start, lets you switch back to the ChemSketch module.)

You can view and manipulate the 3-dimensional structure, in the 3D module. As examples...

- Go to the **View** menu, and choose **Balls & Sticks**. (You can also use the tool button that lights up with that name.)
- To rotate the structure, hold down the left mouse button while moving the mouse.

Double bonds may or may not show in the 3D module -- depending on the "view". (Drawing of double bonds is introduced in a section below: <u>Double bonds (propene)</u>.) They show in **Wireframe** view, but not the other views. The geometry that is shown is correct, taking into account the double bond, but the doubleness of the bond per se is not shown in some views. (This is true for many viewing programs.) If you want to see the double bonds, you might also try viewing the structure in RasMol. To do this, see the next section: <u>3D structures</u>, for <u>RasMol</u>. For a discussion of showing double bonds in RasMol, see the <u>RasMol page</u>, <u>Cyclohexene</u>.

Now that you know about the role of the 3D program... You can load both 3D and ChemSketch at once, by originally opening 3D. That is, loading the 3D program automatically loads ChemSketch (but not the other way). If you do this, you will need to click on the "ChemSketch" button at the bottom left to get to ChemSketch.

F. 3D structures, for RasMol

This section describes another way to make a 3D version of the 2D structure you drew in ChemSketch. It saves the file in a format that can be read by RasMol. This method requires using one more program, but may be useful if you are already familiar with RasMol.

There are three steps:

- 1. Convert the 2D drawing to 3D. To do this, go to **Tools** menu, and choose **3D Structure Optimization**. Alternatively, you can click the button near the right end of the second toolbar; the button looks like a model of CH₄ and lights up with the name **3D Optimization**. On my computer, it is "off the screen", and I have to choose >> ("more buttons") to get to it. (Note that this step is the same whichever method you use for getting a 3D view.)
- 2. Save the file in the MOL format, which RasMol can read. To do this, go to **File** menu, and choose **Save As**. At the bottom of the Save As dialog box, choose **file format** = MDL Molfiles (V2000) (*.mol). Give the file a name of your choice, and click **Ok** to save it. (In previous versions, there was only one option for MDL Molfiles; now you need to choose V2000.)

Prior to version 10, this step was done using **Export**, rather than **Save As**. Now, either command will work. That is, the functions of Export are now duplicated in Save As. Since Save As is the more conventional command, I recommend using it.

3. Open the file in RasMol. To do this, load RasMol. Go to the **File** menu, and choose **Open**. Open the selector box at the bottom, showing **Files of Type:**, and choose MDL Mol File Format. Now find the Mol file that you saved in Step 2, above, and Open it. Except for this one special step, specifying the file type, viewing the file in RasMol is entirely normal. See the <u>RasMol</u> page for information on this program.

G. Drawing in ChemSketch -- more basic features

This section will show you how to draw some other molecules. Each example will introduce one new feature of using ChemSketch. The instructions in this section will help you draw the 2D structure, as you did for propane (Section C, above). Then you can convert to 3D, as you did before [Sections D (introduction), E (within ChemSketch), F (making files for RasMol)]. The instructions for converting to and viewing in 3D above work for all structures drawn in ChemSketch.

1. Double bonds (propene)

Propene (propylene; CH₂=CH-CH₃) differs from propane in having a double bond. The drawing strategy is to draw propane, then change one C-C single bond to a double bond.

First, draw propane, as described above in <u>Section C</u>.

Now, put the pointer on one of the C-C **bonds** in the propane structure. You will know when the pointer is properly positioned, because a faint box will appear around the bond. Single click. The bond will change to a double bond, and the CH_3 will change to CH_2 . You now have the 2D structure for propene (Fig 5):

Fig 5. Propene.

Each time you click on a bond, it will increase from single to double to triple bond, or will change from triple back to single. Just click on the bond over and over, and you will toggle among these choices.

2. Heteroatoms (ethanol)

The "skeleton" of ethanol (ethyl alcohol; CH₃CH₂OH) differs from propane in having an O atom instead of one of the C atoms. That is, ignoring the hydrogens, propane is C-C-C and ethanol is C-C-O. The drawing strategy is to draw propane, then change one carbon atom to an oxygen atom.

A "heteroatom" is an atom other than C or H. Chemistry drawing programs usually draw C atoms by default, and they usually provide the proper number of hydrogen atoms. It is up to the user to specify atoms other than C or H.

First, draw propane, as described above in <u>Section C</u>.

Now, click on the O tool (for oxygen), on the toolbar along the left side; the O tool will light up. (The O tool is a little below the C tool, which you have been using so far, by default.) Then, put the pointer on one of the C atoms at either end of the propane structure. You will know when the pointer is properly positioned, because a faint box will appear around the atom (with its hydrogens). Single click. The C will change to an O, and the number of hydrogens will adjust appropriately. That is, the CH₃ will change to OH. You now have the 2D structure for ethanol (Fig 6):

Fig 6. Ethanol.

This illustrates the general procedure for changing one atom to another in a ChemSketch structure.

In this case, if you changed the <u>middle</u> C to an O, you would make dimethyl ether, H₃C-O-CH₃.

If the heteroatom you want is not shown at the left, click on the periodic table button at the top of that column of tool buttons (just left of the "mm"; see <u>Fig 2</u>); it lights up as "Periodic Table of Elements". Choose the element you want from the periodic table. (The elements directly available at the left, with their own tool buttons, will vary.)

3. Rings and templates

ChemSketch provides templates of several "complex" structures, allowing you to add these structures as a unit. We illustrate that here with a ring.

Go to **Templates** menu, and choose **Table of Radicals**. (You can also reach this by pressing **F6**. There is also a tool button for this feature: it is along the right side, just below the ruler and just above tool buttons for some specific ring templates; it lights up as **Table of Radicals**.)

Find the section of the **Table of Radicals** called **Cycles**. Move the pointer to the benzene ring, and click on it. You will now be returned to the main screen. Position the pointer as desired, and single click. The benzene ring will be put on the screen.

The pointer will still carry the benzene ring. To add a second benzene ring to your structure, position the pointer over any specific atom of the first ring,

and single click. To fuse two rings, position the pointer over a bond in one ring, and single click.

Fig. 2-phenylnaphthalene, drawn using the benzene ring template. Steps... Select the benzene ring template. Lay down ring #1, at the left. Lay down ring #2 at a specific atom on the first ring. Lay down ring #3 at a specific bond in #2.

And the pointer still carries the benzene ring! How do you get it to stop? Click something else. For example, you might click the C tool, at the left, to go back to adding individual carbon atoms. (Or, click on the lasso tool, so the pointer no longer carries anything. You can also right click, but this does not work for other tools, such as the common C tool.)

H. Lewis structures (more templates)

Briefly noted. The topic seems to not be in the help file at all.

Some aids for drawing Lewis structures are available on templates. Go to **Templates** menu, choose **Template Window**. Choose the **Lewis structures** or **Reaction symbols** template. (If either is not listed at the left, explore the drop down menu, near top left.)

The **Lewis structures** template offers several pre-drawn structures, as well as an assortment of dots and/or x's, which you can position as you wish. The **Reaction symbols** template offers a small number of symbols, but perhaps of a more convenient size. I suggest you explore what both templates offer. Note that the **Lewis structures** template has a second page, with some instructions.

I. Interactions between the ChemSketch and 3D modules

The above sections presented certain specific sequences of using the two modules, ChemSketch and 3D. As you become familiar with these two modules, you will learn that there is considerable flexibility about how you use them. Some points...

You can open either program or both programs in any order. It doesn't really matter. Open whatever you want whenever you want. But hint: If you know you want both, open 3D first; it automatically opens ChemSketch along with it.

If both programs are open, you can switch between them using the buttons at the lower left corner (Figure). If those buttons do not appear, it means that you have not yet opened the other module. If one program is open, the easy way to open the other one is from the **ACD/Labs** menu.

Caution. The "Copy to 3D" function does not seem to know whether you actually have a 3D structure. It will allow you to transfer a 2D drawing to the 3D module. So, the mere fact that you are in the 3D module does not mean that you have a proper 3D structure. Be sure to carry out the 3D Structure Optimization. The good news is that you can actually do this within either module. In the 3D module, the 3D Structure Optimization function is available from the Tools menu or a tool button. (This function is labeled both 3D Structure Optimization and 3D Optimization, in various places.)

J. Stereochemistry: Drawing cis-trans isomers at double bonds

Sometimes you want a particular group to point in a certain direction, and the drawing program may insist it point in another direction. This section presents one simple but versatile little trick to deal with this. The specific example is drawing cis-2-butene. By default, ChemSketch seems to want to draw the trans isomer.

Here is how you can draw the cis isomer. This is illustrated in Fig 8, below. The three parts of the figure represent three stages in the drawing. To make the figure, I copied each stage into a new position, so you could see each stage. But normally you would iust do all the steps sequentially one drawing. on 1. Draw 2-butene, following the usual procedures. This gives you (a) in the figure. The problem is that the right hand methyl group points down, and you want it to point

- 2. Add one more methyl group -- the one that points up. This gives you (b) in the figure.
- 3. Remove the lower methyl group, the one you do not want. To do this, choose the **lasso** tool (upper toolbar, near left); using this tool, select the group you want to remove; then remove it with CTRL/X or delete. Now you have (c) in the figure, the desired cis-2-butene.

$$H_3C$$
 H_3C CH_3 H_3C CH_3 CH_3

Fig. How to draw a specific cis-trans isomer.

The procedure described above is useful whenever you want a group to point in a specific direction different from the program default. For example, you may be simply drawing an extended alkyl chain, but want it oriented a certain way.

K. Stereochemistry: Wedge bonds

Wedge bonds allow you to specify that an attached atom is above or below the plane.

Fig 9, below, shows an example. In this example, wedge bonds are used to show a specific stereoisomer at a stereocenter. This was done in three stages. First, I drew an ordinary structure for bromochloroiodomethane (that is, a C with Br, Cl, I, H attached). This is shown at the left. Then, I made two copies of this, on the right. (The copies were for my convenience in making the figure. In normal use, you would just modify the original.) In the top right copy, I changed two of the bonds to up wedges and two to down wedges. In the lower right copy, I did something similar, but switched which bonds are up and which are down.

Procedure for changing an ordinary bond to a wedge bond: To do this, choose a wedge bond tool, and then click on the desired bond. The wedge bond tools are at about 50 on the tool bar just above the ruler; see <u>Fig 2</u>. The solid wedge ("Up Stereo Bonds") is for a bond pointing up, and the dashed wedge ("Down Stereo Bonds") is for a bond pointing down. You can also use the wedge bond tools to draw new bonds.

I have named the structures in Fig 9, using the naming feature of ChemSketch. I showed the names here so you can see that the left hand structure does not get an R/S designation, and the two right hand structures do get R/S designations. Convince yourself that these are correct. The procedure for getting the names is shown below in the section Naming structures.

Fig. Screen shot to show wedge bonds.

Explanation is above.

Caution. ChemSketch will put wedges wherever you tell it to -- even if they are physically unreasonable. For example, you could draw all four bonds around a C with up wedges -- which is not possible. The ChemSketch naming procedure will not put an isomer designation on such an improper structure.

L. Unusual atoms labels (X for halogen, Me, etc)

Sometimes you want to label an "atom" (a particular position on a structure) with something other than an ordinary element symbol. Examples include: D for deuterium, X for a general halogen, Me for methyl.

The symbols D and T, for the hydrogen isotopes, are available from the regular periodic table (near its lower right). That periodic table was introduced above near the end of the section on Heteroatoms (ethanol).

A more general way to insert an unusual "symbol" is the feature **Edit Atom Label**. This tool is on the left tool bar -- but off the screen. So, expand the left tool bar (>> = "more buttons") and look for the button labeled abc; it will light up as **Edit Atom Label**. Click on the abc button; the cursor will now have an odd symbol starting with ab attached to it. Click on the atom you want to change (or anywhere on the drawing screen). A new box opens, called Edit Label. You now have two main choices: First, you can type in the label you want, and press insert. Or you can choose an item from the list there, and press insert.

M. Showing charges

How does one make a charged species, such as the acetate ion shown in the following figure?

The general approach is to draw the neutral molecule first, then change the charge as needed. We will assume you know how to draw the neutral molecule, acetic acid (left) in this case.

Here are two ways to change the charge. The first is simpler for this case; the 2nd is more general.

Both use functions on the left-hand column of buttons. If you do not see the desired button, right-click in the column, and you will get a nice readable list of the buttons, well labeled.

Method 1. Use the "decrement charge" button. You may see instead an "increment charge" button (with a red + on it). If so, click on the little lit-up corner (lower right), and choose the - option. The button will now be for "decrement charge". Click on it, and then click on the O of interest. That should give you the desired ion. (Note that ChemSketch, by default, adjusts the number of H shown to fit.)

Method 2. Use the "atom chemical properties" button. Click on it, and then click on the O atom. You will get a dialog box with much to offer. Choose charge = -1. Click Ok. That should give you the desired ion.

N. Naming structures

To name a structure you have drawn, use the "Generate name for structure" tool. You can access this from the **Tools** menu (expand the **Generate** item), or from the button near the right hand end of the upper toolbar.

Fig. Screen shot to show how ChemSketch names a structure. In this case, I drew a 3-C chain, added a fourth C at the middle position and then changed it to a Cl. I then used the "Generate name for structure" tool; ChemSketch wrote the IUPAC name, 2-chloropropane, just below the structure.

If you want to remove a name that ChemSketch has put on the screen... If naming was the most recent action, then using **Undo** (on the **Edit** menu) will remove it. More generally, click on the name to select it, then "delete" it (such as by using CTRL/X).

The "Name" feature will name geometric isomers of alkenes using the E,Z system.

Example. Draw 2-butene. Name it. ChemSketch seems to draw the E isomer (which is trans), by default, and it properly names it as the E isomer. Now, put a Cl at the 2-position (replacing the H). Replacing an H with a Cl switches the ranking at this position (relative to the methyl group). Name the new compound; it is now, properly, named as Z.

O. SMILES and InChI

SMILES and InChI are both ways to describe a chemical structure in simple text characters.

SMILES = Simplified Molecular Input Line Entry Specification. InChI = (IUPAC) International Chemical Identifier.

This is not the place to try to explain them, but if you want to try them, they are available. Both are available from the **Tools** menu; expand the **Generate** item, and you will see SMILES and InChI commands. There are commands for structure-to-code and code-to-structure.

P. Import and export (file types)

In the Section <u>3D structures</u>, for RasMol we made use of the ability of ChemSketch to save (export) a file in another file format. In this case, we used the MOL format, thus making the file suitable for use with the RasMol program.

In fact, ChemSketch can **Open** (or **Import**) and **Save** (or **Export**) files using several formats. Many of these are file formats used by other programs that deal with chemical structures. For these **File** menu commands, the file type choices are available in the usual dialog box that comes up for choosing file name and type.

Open vs Import? In earlier versions of ChemSketch, the Open command was for the ChemSketch file format, and Import was used for other file formats. Starting with version 10, the functions of Import are duplicated in Open. That is, the two are now equivalent. I recommend use of the more common Open command; Import remains as a legacy command for those who remember it from early versions. Similarly, Save As and Export are now equivalent. (What about Save and Save As? Save is intended for saving a new copy of an existing file, with the same name, type, and location. Save As is intended when you want to change something. For a new file, the two commands become equivalent; that is, using Save will bring up the Save As dialog box.)

Starting with v 10, ChemSketch can save structures as PDF files. This feature is available from the **File** menu, **Save As** command. [This does not work for 3D models (i.e., from the 3D module).] There is also a button for this, on the upper tool bar, next to the **Print** button. It looks like the common Adobe Acrobat logo and is labeled **Export to PDF**.

A somewhat related operation is the use of ChemSketch structures in Microsoft Word. To do this, copy the desired information from the ChemSketch screen in the usual way. Then, in Word, use Paste Special (Edit menu) to insert the information into a Word document.

Q. Antialiasing

Antialiasing makes lines and edges appear smoother on the screen. Information on how to turn on this feature was introduced in the section <u>Getting and installing ChemSketch</u>; scroll down to **Settings**, at the end of that section. Whether it is on or off by default varies with the version; in version 14, it seems to be off.

The smoothing is applied as part of displaying the structure; it is not stored in the file. Thus, one can gain the benefit of antialiasing with pre-existing files, and can turn it on or off as desired.

Since antialiasing is a display feature, not intrinsic to the drawing, it may or may not be included when you copy a structure to another application. A true screen capture will include the smoothing. On the other hand, copying the structure and pasting it into Word or Powerpoint (with Paste Special) does not include the smoothing. (The free program IrfanView contains a good screen capture feature. IrfanView is at https://www.irfanview.com/.)

2. PKSolver

It is a menu-driven add-in program for Microsoft Excel written in Visual Basic for Applications (VBA), for solving basic problems in pharmacokinetic (PK) and pharmacodynamic (PD) data analysis. The program provides a range of modules for PK and PD analysis including noncompartmental analysis (NCA), compartmental analysis (CA), and pharmacodynamic modeling. Two special built-in modules, multiple absorption sites (MAS) and enterohepatic circulation (EHC), were developed for fitting the double-peak concentration time profile based on the classical one-compartment model.

3. PCP Disso

For calibration curve, percent drug release, model fitting and F2 factor from the dissolution studies.

4. Design-Expert® software (DX13)

Design-Expert 13 (DX13) is a software tool that can be used to optimize products and processes. It offers a variety of statistical tools, including:

- 1. Two-level factorial screening designs: Helps identify the most important factors that affect a product or process
- 2. General factorial studies: Helps find the best combination of categorical factors
- 3. Response surface methods (RSM): Helps find the best process settings for optimal performance
- 4. Mixture design techniques: Helps find the ideal recipe for a product formulation
- 5. Logistic regression: Helps analyze binary data, such as whether a process is pass/fail
- 6. Poisson regression: Helps fit more accurate models when the response is a count data
- 7. Multiple analyses: Helps model all responses in different ways for easy comparison

Dr. Amit Kasabe demonstrating and operating of the Design-Expert 13 (DX13) is a software tool to the M. pharmacy students.

संदर्भ क्र.-वि.वि.मं. २०२३-२४/१२४

प्रति , मा.प्राचार्य, पुणे जिल्हा शिक्षण मंडळ शंकरराव उरसळ कॉलेज ऑफ फार्मासुटीकल सायन्स अँड रिसर्च सेंटरखराडी. पत्ता: १५/२अ/१/१ झेन्सार आयटी टॉवर जवळ खराडीपुणे-४११ ०१४ ता.: पुणे (महानगर पालिका हद्द) जि: पुणे पिनकोड: 411014

विषय : कर्मवीर भाऊराव पाटील कमवा व शिका योजना मान्यता.

महोदय/महोदया.

आपल्या प्रस्तावास अनुसरून शैक्षणिक वर्ष २०२३-२०२४ करिता कर्मवीर भाऊराव पाटील कमवा व शिका योजना राबवण्याबाबत विद्यार्थी विकास मंडळ प्राधिकरणास आपण पाठविलेला प्रस्ताव मान्य करण्यात आला आहे. या योजनेबाबतच्या सर्व सुधारित नियम व अटींचे पालन करून वरील योजना आपल्या महाविद्यालात ऑगस्ट २०२३ ते माहे फेब्रुवारी २०२४ ह्या दरम्यानच्या कालावधीत राबविणे अपरिहार्य आहे.

- 1. योजनेत सहभागी प्रत्येक व सर्व विद्यार्थ्यांना; त्यांनी केलेल्या प्रत्यक्ष कामाचा मोबदला (प्रति विद्यार्थी प्रति तास रुपये ४५/- याप्रमाणे एका दिवशी जास्तीत-जास्त ३ तासापर्यतच) काम केलेल्या प्रत्येक महिन्यानंतर त्वरित संबंधित प्रत्येक / सर्व विद्यार्थ्यांच्या बँक खात्यामध्येच लगतच्या पृढील महिन्यात १२ तारखेपर्यंत जमा करणे अनिवार्य आहे.
- या योजनेच्या नियमावलीनुसार प्रत्येक महाविद्यालय/पिरसंस्थेतील विद्यार्थी विकास मंडळाचे राष्ट्रीयीकृत बँकेमध्ये माननीय प्राचार्य व विद्यार्थी कल्याण अधिकारी यांच्या संयुक्त स्वाक्षरीने स्वतंत्र खाते असणे आवश्यक आहे. (या संयुक्त खात्याचा उपयोग फक्त विद्यार्थी विकास मंडळाकडूनच मंजूर झालेल्या या व इतर सर्व योजनांच्या अनुदानाचे वितरण व खर्च करणेसाठी करावा.)
- 3. विद्यार्थ्यांचे मानधन वितरणाची संपूर्ण प्रक्रिया हि " महाविद्यालय / परिसंस्थेने या योजनेसाठी निश्चित केलेल्या राष्ट्रीयीकृत बँक खात्यामधून विद्यार्थ्यांच्या बँक खात्यामध्ये " याच पद्धतीने असणे अनिवार्य आहे. या विहित पद्धती शिवाय इतर कोणत्याहि प्रकारे/ पद्धतीने विद्यार्थ्यांचे मानधन वितरण अनुज्ञेय नसून ते अग्राह्य मानले जाईल व संबंधीत लेखे अस्विकृत करण्यात येतील.
- 4. कर्मवीर भाऊराव पाटील कमवा व शिका योजनेच्या नियमावलीनुसार या योजेतील सहभागी विद्यार्थ्यांना त्यांचे मानधन प्रत्येक मिहन्याच्या समाप्तीनंतर तात्काळ लगतच्या मिहन्याच्या १२ तारखेपर्यत त्यांच्या बँक खात्यात जमा करणे अनिवार्य आहे. असे न झाल्यास त्या त्या मिहन्याचे अदा केलेले मानधन लेखापरीक्षणातून वगळले जाईल आणि विद्यापीठाकडून अशा विलंब केलेल्या मानधनाचे अनुदान मिळणार नाही.
- 5. विद्यार्थी विकास मंडळाच्या निर्देशानुसार सदर योजनेत सहभागी विद्यार्थ्यांना एकूण जास्तीत जास्त तीन तासापर्यंतच काम देता येईल.
- 6. सदर योजनेतील सहभागी विद्यार्थ्यांना श्रमाचे महत्त्व व एकुण स्वरूप लक्षात येण्यासाठी आळीपाळीने कार्यालयीन व क्षेत्रीय कामकाज देण्यात यावे.
- 7. योजनेतील सहभागी विद्यार्थ्यांना परीक्षा कालावधी व सार्वजनिक सुट्ट्या सोडून काम देण्यात यावे.
- 8. सदर योजना आपल्या महाविद्यालयात फेब्रुवारी २०२४ अखेर या दरम्यानच्या कालावधीतच राबविणे अनुज्ञेय आहे.

या योजनेच्या अंमलबजावणीसाठी योजनेच्या प्रचलित सर्व नियम व अटींचे कोणत्याही स्तरावर उल्लंघन झाल्यास या योजनेची मान्यता तत्प्रभावी रद्दबातल होऊन त्याबाबतची प्रशासकीय/आर्थिक सुरक्षात्मक स्वरूपाची सर्व जबाबदारी महाविद्यालय/परिसंस्थेची असेल. विद्यार्थी विकास मंडळ प्राधिकरणाच्या नियमावलीत न राहता उपक्रमासंबंधी झालेल्या कार्यवाहीचा व वार्षिक लेख्यांचा वार्षिक लेखा परीक्षणाच्यावेळी विचार केला जाणार नाही. कळावे, हि विनंती.

REPORT

Of Orientation Programme on "Unexplored Opportunities in Pharma Field"

Field" on 20th October 2023 under Training and Placement cell, for the students of III rd year B. Pharm and Final Year students of B. Pharm and M.Pharm. The main objective of this seminar was to make the students aware about the unexplored opportunities in pharma. Mr. Abhay Thube Business development manager in Emcure Pharmaceuticals and Mrs. Smita Thube Project manager in Tata Elxsi Director CliniTech Support shared their views on Career Guidance and Business Opportunity." In his talk he narrated on the medical, scientific writing and challenges of documentation in clinical research study, they made the students aware about the change in the traditional pharma jobs and aware about freelancer opportunities in healthcare.

Mr. Abhay Thube highlighted on Career Guidance and Business Opportunity, he focused on today's scenario of Pharmaceutical industries in India and abroad, and the challenges in Pharmaceutical healthcare industry. Principal Dr Ashok Bhosle welcomed the speaker and appealed the students to take maximum benefit. TPC coordinator Dr Asmita Sakore in her preamble speech drew the attention of the students that how the students can contribute to the profession and community. Students cleared their doubts and interacted with the speakers during question answer session. Overall the students were benefited by this seminar and expressed their gratitude for organizing this important seminar. Dr V. U Barge vice principal, and staff members were present for the seminar.

Invitation Letter

To,

Mrs. Smita Thube CliniTech Support Pune.

Vice President Rajendra Ghadge

> Subject: Invitation as Resource Person for career guidance seminar on topic "Unexplored Opportunities in Pharma Field"

Dear Madam.

Our college was established in 2009 with B. Pharm course at its initial stage, M. pharm in Pharmaceutics and Quality Assurance technique was introduced in the year 2012 with the prime aim of imparting quality education to students in the field of Pharmaceutical Sciences. Presently college is recognized as Ph.D. center in pharmacy under faculty of Science and technology by SPPU.

College thrives for overall development of the students and is possible only by organizing various student centered activities such as Seminars, Workshops, Poster presentation, etc. Which enables students to get updated with present stage of profession and achieve skills and confidence to face todays challenges.

I proudly feel that you are the right person who can guide our students on the topic "Unexplored Opportunities in Pharma Field"

I kindly request you to accept our invitation and make it convenient to be present as a resource person on 20th October 2023 at 11.00, am, in our college and guide our students.

Looking forward for same co-operation in future Thanking You,

Yours Faith

Dr Ashok V Bhosale

Report on Value Added Certificate Course in Clinical Research and Pharmacovigilance

Introduction:

Clinical Research and Pharmacovigilance are the important areas in pharmaceutical industry. Clinical Research is currently blooming industry worldwide.

Course Outcome:

At the end of the course students will be able to...

- Explain the regulatory requirements for conducting clinical trial
- Describe in detail about various types of clinical trial designs
- Explain the responsibilities of key players involved in clinical trials
- Describe the documentational requirements for Clinical trials
- Explain Adverse drug reaction and its management
- Describe basic concepts, and establishment of Pharmacovigilence
- Explain ADR reporting, methods and tools used in Pharmacovigilence
- Describe Pharmacoepidemiology, pharmacoeconomics and safety pharmacology

Course Hr.: 30 Hr

No. of Student Enrolment: 64

Name of Resource Person:

- 1. Dr. Shailesh Chauthankar ,Principal Investigator and Co-investigator at Synapse Labs Pvt.Lmt, Pune
- 2. Dr. Mahendra Gaikwad Safety Physician, Syneos Health, Pune

Dates: 20/10/2023 to 04/02/2024

- Dr. Ashok Bhosale Principal, welcomed the resource person Dr. Shailesh Chauthankar
- ❖ The Resource person enlightened the audience on the importance of certificate course in clinical research and pharmacovigilance
- Dr. Shailesh Chauthankar delivered the course of clinical research and Dr. Mahendra Gaikwad delivered the course of Pharmacovigilance.

- Enrolled students of the programme actively participated in question and answers.
- * Total 64 students were completed the course
- Assessment is conducted to the students and evaluated, certificate are distributed to the students who successfully met the attendance criteria and qualified the assessment.

ॲड. मोहनराव देशमुख

उपसचिव **एल. एम. पवार**

प्राचार्य डॉ. अशोक भोसले सोबतच्या प्रस्तावामध्ये सादर केलेली माहिती ही यासंदर्भातील नियम तसेच महाराष्ट्र शासन / विद्यापीठ सक्षम प्राधिकरणे यांनी वेळोवेळी निर्गमित केलेले आदेश /परिपत्रके/ निर्णय/ बृहत आराखडा व अन्य यांची पूर्ण माहिती घेऊन भरण्यात आली. आहे तसेच या सोबत मान्यता मिळालेल्या शिक्षकांची किंवा शिक्षक मान्यतेसाठी प्रस्ताव सादर केलेल्या शिक्षकांची यादी जोडलेली आहे. या माहितीमध्ये काही त्रुटी व असत्यता आढळल्यास सदर प्रस्ताव कोणत्याही स्तरावर नाकारण्याचे सर्व अधिकार विद्यापीठास असतील व त्यास संस्थेची कोणती हरकत असणार नाही.

REPORT

Of Programme on "Pharma Product Development and Marketing Strategies"

Marketing Strategies" on 23rd October 2023 under Training and Placement cell, for the students of III rd. year B. Pharm and Final Year students of B. Pharm and M.Pharm. The main objective of this seminar was to make the students aware about the "Pharma Product Development and Marketing Strategies". Ms. Divya Thakur Project manager in ArEx laboratories, Mumbai shared her views on Career Guidance in marketing. In her talk she narrated on the pharma marketing, medicomarketing, and challenges of pharma product development in market.

Ms. Divya Thakur highlighted on Pharma Product Development and Marketing Strategies, she focused on today's scenario of Pharmaceutical industries in India and abroad, and the challenges in Pharmaceutical marketing industry.

Principal Dr Ashok Bhosle welcomed the speaker and appealed the students to take maximum benefit. TPC coordinator Dr Asmita Sakore in her preamble speech drew the attention of the students that how the students can contribute to the profession and community. Students cleared their doubts and interacted with the speakers during question answer session. Overall the students were benefited by this seminar and expressed their gratitude for organizing this important seminar. Dr V. U Barge vice principal, and staff members were present for the seminar.

Invitation Letter

To.

Mrs. Divya Thakur ArEx laboratories Pune.

Subject: Invitation as Resource Person for career guidance seminar on topic "Pharma Product Development and Marketing Strategies"

Madam,

Our college was established in 2009 with B. Pharm course at its initial stage, M. Pharm in Pharmaceutics and Pharmaceutical Quality Assurance was introduced in the year 2012 with the prime aim of imparting quality education to students in the field of Pharmaceutical Sciences. Presently college has recognized as Ph.D. Center in pharmacy under faculty of Science and Technology by SPPU.

College thrives for overall development of the students and is possible only by organizing various student centered activities such as Seminars, Workshops, Poster presentation, etc. Which enables students to get updated with present stage of profession and achieve skills and confidence to face today's challenges.

I proudly feel that you are the right person who can guide our students on the topic "Pharma product development and marketing strategies"

I kindly request you to accept our invitation and make it convenient to be present as a resource person on 23rd October 2023 at 2.00 pm, in our college and guide our students.

Looking forward for same co-operation in future Thanking You,

Yours Faithfull

Dr. Ashok V Bhosale

Thanking Letter

To, Mrs. Divya Thakur ArEx laboratories Pune.

On behalf of P.D.E.A.'s Shankarrao Ursal College of Pharmaceutical Sciences and research center Kharadi, Pune, I express my sincere thanks for your valuable guidance and motivation to our students, on the topic "Pharma product development and marketing strategies" on 23rd October 2023. I am sure that your guidance will enable our students and staff to take the proper direction in their life. Thanking you once again for sparing your valuable time and making it convenient to visit our campus on and looking forward for the same co-operation and guidance in future.

With warm regards.

REPORT

Seminar on "Preparation of GPAT Exam"

College organized one-day seminar on the topic "Preparation of GPAT Exam" on 2nd November 2023 under Training and Placement cell, for the students of III ^{rd.} year B. Pharm and Final Year students of B. Pharm. The main objective of this seminar was to make the students aware about the opportunities after GPAT qualification in pharma. Mr. Lakshya Malviya Branch manager of Pharma Sapiens, Pune. In his talk he narrated on the topic from Jurisprudence subject. He gave simple tricks related to schedule and how to keep in mind.

Mr. Lakshya Malviya highlighted on **Preparation of GPAT Exam**, he focused on how to study for GPAT.

Voice Principal Dr Vijaya Barge welcomed the speaker and appealed the students to take maximum benefit. TPC coordinator Dr Asmita Sakore in her preamble speech drew the attention of the students that how the students can contribute to the profession and community. Students cleared their doubts and interacted with the speakers during question answer session. Overall the students were benefited by this seminar and expressed their gratitude for organizing this important seminar.

Invitation Letter

To,

Mr. Lakshya MAlviya Pharma Sapiens India & Branch Manager Pune:

Subject: Invitation as Resource Person for seminar on topic "Preparation of GPAT Exam"

Sir,

Our college was established in 2009 with B. Pharm course at its initial stage, M. Pharm in Pharmaceutics and Pharmaceutical Quality Assurance was introduced in the year 2012 with the prime aim of imparting quality education to students in the field of Pharmaceutical Sciences. Presently college has recognized as Ph.D. Center in pharmacy under faculty of Science and Technology by SPPU.

College thrives for overall development of the students and is possible only by organizing various student centered activities such as Seminars, Workshops, Poster presentation, etc. Which enables students to get updated with present stage of profession and achieve skills and confidence to face today's challenges.

I proudly feel that you are the right person who can guide our students on the topic "Preparation of GPAT Exam"

I kindly request you to accept our invitation and make it convenient to be present as a resource person on 2rd November 2023 at 1.30 pm, in our college and guide our students.

Receired Looking forward for same co-operation in future

Thanking You,

Yours Faithfully

Dr. Ashok V Bhosale

Subject: Invitation for Seminar on Internet Access and Security under Capacity Building Program

Respected Ma'am,

Hon. Secretary

Adv. Sandeep Kadam

Senate Member, SPPU, Pune

Greetings from PDEA's Shankarrao Ursal College of Pharmaceutical Sciences and Research Centre!

We are pleased to invite you to deliver a seminar on "Internet Access and Security" as part of our Capacity Building Program for the academic year 2023-2024. Your expertise in content moderation and digital marketing makes you an ideal speaker to enlighten our students on this significant topic. The seminar aims to enhance students' knowledge in internet security and its application in their professional and personal endeavours. The session is scheduled for 19th March 2024 at 12.0 pm at our college premises.

REPORT

Of Seminar on

Entrepreaurship awareness programme

College organized Two days' seminar on the topic of Entrepreaurship awareness programme on 27th & 28th February 2024 under Training and Placement cell for the students of III rd. year B. Pharm and Final Year students of D. Pharm, B. Pharm and M.Pharm. The main objective of this seminar was to develop the students as Entrepreneur and give them focus on the different opportunities available for them after completion of D. Pharm, B. Pharm and M.pharm. Seminar was inaugurated by Saraswati Pujan by the auspicious hands of Mr. Sunil Mirashi Director Divine Corporation, Pune, Principal Dr Ashok Bhosale, Dr. Sujit Kakade, Vice Principal Dr V.U Barge, TPC Coordinator Dr. A. R. Sakore were appealed the students for taking advantage of this seminar and be interactive, on this occasion principal Dr Ashok V Bhosale narrated about the importance and objective of this seminar, Vice Principal Dr V.U Barge shared his best wishes for two day's seminar and congratulated principal for organizing such type of seminar. On the first day Mr. Sunil Mirashi Director Divine Corporation delivered a talk on topic "Skills & competencies required to be an Entrepreneur" on his talk he highlighted about importance of SWOT analysis in deciding the career. In the second session speaker Prof. Chandrakant Gavhane Divine Corporation Pune discussed about "Sectors for Career Prospects and How to identify opportunities" he traced down the importance of medicinal plants as a choice in developing career. On the second day in the morning session Mr. Prasanna Bhat shared his views on "Importance of Entrepreneurship in Today's World and how it can be evolved" in his seminar he guided the students about what are the easiest ways to become entrepreneur and how easy it is to achieve the target of becoming entrepreneur. In the afternoon session Mr. Sunil Mirashi discussed on "Schemes of assistance and support available from Govt. agencies, banks, financial institutions." Mr. Sunil Mirashi interacted with the students about the different competition and challenges and how to overcome this by simple techniques. Anchoring and introduction of the guest for this seminar was done by TPC Coordinator Dr. Asmita Sakore. Seminar was concluded by vote of thanks by Ms Dipika Prajapati. Overall two days' seminar was

fruitful one and many students in their feedbacks expressed that this seminar was very important in deciding the career and entrepreneurship.

REPORT ON CERTIFICATE COURSE ON "LEADERSHIP DEVELOPMENT PROGRAM" (Duration : 30 Hrs)

IN ASSOCIATION WITH SOULOMKAR, PUNE.

[Academic Year : 2023-2024]

Title: Certificate course on "Leadership Development Program"

Aim : The certificate course was aimed at the promotion of leadership skills of participants. It is also aimed to equip the participants with understanding of Group behaviors and how a cohesive team could be build. The rationale behind this endeavor is the development of effective leaders and participative teams.

Objectives: Leadership is an important function in every small and large business. Leadership is establishing a clear vision, communicating the vision to others and resolving the conflicts between various individuals who are responsible for completing the mission and vision of organization. Generally, organizations use leadership program as a tool to improve organization's performance.

Hence, the objective behind conduct of this certificate course was to enable the participants understand how good teams can be build and how to be a natural leader.

Description: The institute conducted 30 Hrs duration Certificate course on "Leadership Development Program" in collaboration and under the guidance of Dr. Amit Deokule (Director-Soulomkar, Pune) for Second Year B. Pharm (2019 Pattern) students. Classes were conducted by Dr. Amit Deokule (Director-Soulomkar, Pune) on every Saturday for 5 Hrs in the month April / May 2024 (as mentioned in below given timetable) for the academic year 2023-2024. Selected 55 students of Second Year B.Pharm (2019 Pattern) class successfully completed this 30 Hrs duration Certificate course on "Leadership Development Program" and awarded with certificates.

Participants details: Selected 55 students of Second Year B.Pharm (2019 Pattern) class were enrolled for this program and had successfully completed this 30 Hrs duration program
