### Paper Consumption

All the staff members are informed that our college is taking initiative under the scheme of "Going green", "going paperless" – these ideas often arise when the institute starts thinking about cutting down on expenses in the college. Needless to say, that reducing paper consumption can benefit both the college budget and the global environment. It is important to inform people throughout the college of the new changes.

Some points for less paper consumption are listed below:

- Go paperless and encourage electronic document workflow.
- Communicate, collaborate, and take notes electronically.
- Implement a printer and copy machine control system in the office (if you haven't already).
- Use duplex mode (double-sided printing) whenever possible.
- Print only what's really needed.
