## **NATIONAL SERVICE SCHEME (NSS)**

### **Introduction**

The National Service Scheme (NSS) had its birth on September 24, 1969, during the Gandhi centenary year. The scheme was first launched in 37 universities comprising 40,000 students. Today the NSS has become the largest Government organization of students in the country comprising members from the +2 level to the college and university levels. The strength of volunteers has now increased to more than 30 lakhs, which makes the NSS one of the largest student forces in the world. The number of student's strength increased from 40,000 to over 3.8 million up to the end of March 2018 students in various universities, colleges, and institutions of higher learning have volunteered to take part in various community service programs. The strength of NSS volunteers makes the NSS one of the largest student forces in the world. The NSS has good relations with different government agencies and non-government organizations in implementing its programs for building up community assets and helping the underprivileged people through education and social services. The NSS is useful not only for the development of the student's personality but also helps promote the unity and integrity of the nation by bringing together young people from diverse geographical and socio-cultural backgrounds. The National Service Scheme (NSS) started functioning at Jabalpur university in 1969 and the performance of this scheme is highly satisfactory.

### **Aim**

The main aim of the National Service Scheme (NSS) is to develop the personality of students through community service. It encourages youth to participate actively in social and nation-building activities, fostering a sense of responsibility, discipline, and commitment towards society.

### **Motto of NSS**

**“NOT ME BUT YOU”**

This embodies the essence of democratic living and emphasizes the importance of unselfish service, respect for the other's point of view, and consideration for fellow humans. It emphasizes that an individual's well-being is ultimately dependent on the well-being of society as a whole. As a result, the NSS should make it a goal to live up to this philosophy in its daily activities.

### **The NSS Symbol**

The National Service Scheme's symbol, which appears on the cover page, is based on the chariot wheel of Odisha's Konark Sun Temple. The Sun Temple's massive wheels represent the cycle of creation, preservation, and release, as well as the movement of life across time and space. The symbol's design, a simplified version of the sun-chariot wheel, emphasizes movement. The wheel represents life's ever-increasing cycle. It represents both continuity and change, implying the NSS's ongoing commitment to societal development and advancement.
