Report on

“Karmaveer Bhaurao Patil Earn and Learn Scheme”

Academic Year: 2018-19

The main objective of the scheme is to develop a student as a multifaceted personality with academic excellence and a commitment to an egalitarian society. India lives in her villages and to bridge the gap between rural Bharat and urban India, this scheme is basically undertaken for the benefit of students coming from the rural areas, who are economically backward, intelligent and meritorious but cannot afford higher education, needy and financially hard pressed. It inculcates in the student the idea that no work is big or small and develops a work culture with the right aptitude. This is a vision of keeping our youth gainfully employed as well as to contribute from civil society. This is a paradigm shift in the way we see higher education. This will make higher education accessible and available to the poor, meritorious and the marginalized.

Earn and Learn Scheme is introduced by Savitribai Phule University of Pune to help students those facing financial problem while studying. Students working under this scheme are paid an honorarium of Rs.45 per hour. Savitribai Phule University, University of Pune Sanctioned Rs.

75,000 for the ratio 1 to 500 students.90% Expenditure shall be paid by the University& remaining amount (10%) need to be paid by college to students.

We were started this scheme on August 2018 with 14 students from all class. We were divided student's groups. We give the work students like.

- 1. Library Work:** One of the main benefits of work experience in a Library would be the huge exposure to books that you may not have otherwise looked at. Although you cannot read all of the books you will be exposed to, just knowing the names of the authors and the different ranges of genres that exist can enlighten and change your reading style for the years to come.

- 2. Practical Lab:** The most important thing in laboratory is, to gather various information about chemicals, their chemical formula and it also helps to determine safety measures and precaution taken at the time of preparing chemical substances. It also helps to collect information about instruments used in laboratory.

- 3. Gardening:** It is most excitement and unjoyful work ever had, it increases love towards plants. It helps to increase knowledge about medicinal plant and uses. It improves the skill required for gardening. The various plant in academic syllabus is learn with the help of gardening. Proper care of the plants and nutrition required by plant is done though the garden work.

- 4. Cleaning Ground:** The various activities done in college about cleaning activities. It also helps to know about diseases cause due to garbage or other waste material due to that cause

various diseases like malaria, dengue, fever, etc. The separation of wet garbage and dry garbage also helps to determine make compostable fertilizers. The proper destroying of plastic material and safety-precautions about that helps to increase our knowledge.
